

ATMNE Newsletter Fall 2017

ATMIM ∞ ATOMIC ∞ ATOMIM ∞ NHTM ∞ RIMTA ∞ VCTM

ELECTRONIC NEWS October 2017

President's Message

The school year is already well underway - I hope that you were re-energized over the summer through some PD (perhaps a workshop, a good book, or through exploring resources online?). There is so much out there to take advantage of!

The ATMNE Board and the leaders of each of the six state affiliates work hard to provide offerings that will meet your needs. Check out the many opportunities described in this newsletter that are available this fall through your affiliate.

Finishing touches are being made to the annual ATMNE conference to be held in Marlborough, MA (November 2-3)! If you still haven't registered...

Here are the top 5 reasons to attend:

- A terrific program and insightful keynote presentations
- The camaraderie of other math educators (about 500 of them)
- Lots of exhibitors showcasing new resources
- The opportunity for personal growth that will impact your classroom
- Door prizes!

And I didn't mention all the good food that is part of your registration fee! Bring a friend!

I'll see you there!
Judy Curran Buck
